
CLOVER CONNECTIONS

Volume 1, Issue 1

November 2009

Winter Reminders

Thermostats & Plowing

Please remember now that the weather is turning cold that you need to flip your switch from AC to Heat on your thermostat. This also may require an adjustment to your thermostat set automatic temperatures. Please report any thermostat issues to the office. If you would like assistance re-setting temperatures, let us know and we will be glad to lend a hand.

Plowing season is fast approaching. For heavy snowfalls we will start plowing at 4am to help the early working crowd. Please be aware that if your vehicle is in a parking space when the plow comes around that we cannot plow that area. To help out please move to a different space in between plowing sessions so we can have room for all during these busy holiday times.

November's Neighborhood Business

Shortsville-Manchester Area Chamber of Commerce

The Chamber would like to welcome you to the neighborhood, and encourages you to check out their website for information on all of the local businesses that our community has to offer.

The Shortsville-Manchester Area Chamber of Commerce is a volunteer organization whose main function is to promote progress and a positive business climate within the two villages. The Chamber serves the community by promoting the region, enhancing the business environment, and providing quality membership programs and services.
